

CONSTRUCTION

Steamfitter

A steamfitter lays out, assembles, maintains and repairs piping to carry water, steam, fluids, gases, chemicals and fuel for heating, cooling, lubricating and process piping systems.

Do you have mechanical aptitudes and manual dexterity? Would you be able to do frequent climbing? Can you do heavy lifting? Do you have the ability to read and understand complex instructions? Are you able to do careful and exacting work?

MOST IMPORTANT ESSENTIAL SKILLS

- attention to detail
- communication
- numeracy
- problem solving
